

Farm Direct Additional Contract Terms

Great Lakes Grain's master contract terms which are available on request and published at www.greatlakesgrain.com together with additional terms included here form all the terms and conditions of this contract.

Receipt of this contract by you is an acknowledgement of acceptance unless immediate notice is sent to us advising of any errors.

This contract is subject to the Trade Rules of the National Grain and Feed Association ("NGFA") published at www.ngfa.org

All agreements must be in writing and this is the final expression of our agreement.

Any confirmation by you that contains terms or conditions that are inconsistent with or in addition to the terms and conditions herein shall not be binding except to the extent that we approve and confirm in writing.

Grain purchased with this contract will be picked up from your farm or other location provided by you in truck load quantities (minimum 38 metric tonne) and delivered to a feed mill, processor or terminal.

All grain must meet processor or terminal minimum quality standards.

Destination weights, grades and discounts apply to all deliveries. (Most Discount Schedules are available at www.greatlakesgrain.com and are subject to change)

A delivery schedule will be provided by GLG when it is made available by the receiving destination.

Quantities requiring multiple loads may be spread over the delivery period.

You will provide us with an assessment of quality so that we can determine an appropriate destination.

Your farm or other location must have access and be suitable to accommodate a commercial bulk carrier.

You may incur charges for loads less than the minimum quantity.

You may incur charges if your loading time exceeds one hour.

You will make record of the load to include date, carrier name, license plate or other identifier of the truck and trailer approximate load weight and have it signed by the carrier's driver. If requested a copy of the record will be provided to us.

When a delivery exceeds the contracted quantity we may apply the excess quantity as follows:

- If you have another contract for delivery less than 30 days from the date of delivery, the quantity will be applied to that contract, or
- If you do not have a contract for delivery less than 30 days from the date of delivery, the excess will be priced during application of the unload information.

There may be charges or price adjustments for extra handling for any load rejected by the processor or terminal and redirected to another delivery point. An example of charges is available in the Farm Direct Program description at www.greatlakesgrain.com

Item	Disposition of load	Discount per Tonne
Rejected Load	Redirected to an alternate processor location	\$10.00
Rejected Load	Redirected to a GLG location	\$30.00
Change destination to a alternate point	GLG will determine destination	No Discount
Change of destination to a branch unload for blending		\$12.00
